Service-Learning (SVL) Global Course Development Grants for 2017-2018 with Local Focus
$500 awarded as add-pay for a revised course, $1000 awarded as add-pay for a new course

Purpose
To fulfill Global Engagement QEP learning competencies through traditional service-learning courses designed to engage students with culturally diverse situations and develop student ability to communicate in a culturally informed manner in international, intercultural and/or multicultural contexts.

We seek projects that specifically and intentionally address Global Engagement QEP student learning outcomes (SLOs listed below) and include direct assessment of student learning. The faculty member will need to share course assignments, products, or artifacts that demonstrate student learning in at least 1 of the 4 QEP student-learning outcomes (preference in funding will be given to courses that address more than 1 QEP SLO).

   d. What course assignments, products, or artifacts will be submitted to the QEP committee to demonstrate student learning in the chosen SLOs
